Mike,

I had a great Thanksgiving break and hope you had a good one as well. I did look through some of the documents you sent but have not had a chance to finish going through all of it yet. I'll be happy to make notes while going through them and sending them to you as soon as I have completed the review of the documents. I have no problem having a call with you after to discuss any questions you may have and it should be much easier to have a call in the next few weeks since we should be getting our real phone system up and running soon instead of the phone system through the computer with a headset that we have currently. I look forward to working more with you in the near future and feel free to contact me anytime.

Have a great day!

Amy

Hi Amy,

I hope you had a great Thanksgiving and got a little time off last week as well. Hey, I just wanted to check in with you to see if you'd had a chance to look anymore at the documents I had sent you a little while back. Please feel free to call or write if you have any questions after looking through them. If possible, it would be great if you could perhaps just jot your thoughts down in writing and send them along to us when you've completed your review. Nothing formal is needed, just

something for us to work from in deciding how to proceed. After that, and if you wouldn't mind, perhaps you and I and Russell Nelson (my team leader who I think you met before) could have a call to discuss if we have any additional questions? I'm still a little new to this program and the whole consultation process so I think I would get a lot from such a conversation.

Thanks so much!

Hi Mike,

I meant to email you back to let you know that I did receive both emails and am slowly going through them. I took a little time yesterday looking for information on how both of those actions (DO revision and turbidity revision) effect species and will provide some technical assistance as soon as I can. Hope you have a great day!

Hi Amy,

Meant to ask you about whether you received the two documents that I forwarded you on Monday. Did you receive them? Thanks so much!
